PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in AI & ML, with hands-on experience building and shipping full-stack web products (SaaS tools, browser-based utilities) and leading technical initiatives for student organizations. Skilled in JavaScript/React ecosystems, backend development, and SEO-driven growth strategy, with a track record of taking projects from concept to deployment independently.

EDUCATION

University of Engineering & Management (UEM), Jaipur

Jul 2024 – Apr 2028

B.Tech, Computer Science & Engineering (AI & ML)

Jaipur, Rajasthan

- Relevant Coursework: Data Structures & Algorithms, DBMS, OOP, Operating Systems, Computer Networks, Artificial Intelligence, Machine Learning

EXPERIENCE

The Speech Society (TSS)

Aug 2026 – Present

Technical Head & Web Developer

Jaipur, Rajasthan

- Leading technical operations and web development initiatives for the society.
- Developing and maintaining responsive web pages using HTML, CSS, and JavaScript.
- Collaborating with the core team to plan and execute technical strategy for events and outreach.

CodeAlpha

Jun 2026

Back End Developer Intern

Jaipur, Rajasthan

- Engineered backend APIs, database schemas, and server-side logic for scalable web applications.
- Delivered hands-on contributions across the full backend development lifecycle in a real-world team setting.

PROJECTS

FreePDFLY | freepdfly.com

- Built a 100% client-side, browser-based PDF tools SaaS (PDF to Word/Excel, merge, split, compress) using Astro.
- Owned end-to-end product development, frontend engineering, UI/UX, and technical SEO.
- Drove organic growth through SEO-focused content strategy and search-engine discoverability improvements.

FCForge | fcforge.com

- Developed a soccer / EA FC gaming tools website with SEO-optimized content and site structure.
- Conducted SEO audits and Google Search Console analysis to diagnose indexing issues and improve rankings.
- Built a ranking strategy targeting Google Discover eligibility and organic traffic growth.

SendVirtualGift | sendvirtualgift.com

- Built a web platform enabling users to create and send personalized virtual gifts online.
- Developed responsive, user-friendly interfaces to streamline the gift creation and sending flow.
- Deployed and maintained the frontend for a fast, reliable end-to-end user experience.
